SUMMARY:

Passionate and skilled web developer with a strong foundation in creating dynamic and responsive applications. Proficient in frontend technologies (Tailwindcss, React.js, Next.js) and backend technologies (Django, Django REST Framework), with expertise in database management. Seeking an opportunity to apply my skills and contribute to innovative digital projects.

SKILLS:

Programming Languages:

Python | Javascript

Frameworks and Libraries:

Tailwindcss | Reactjs | Nextjs | Django | DRF | Websockets

Databases:

PostgreSQL | MySQL | SQLite

Dev Tools:

Git | Github | Postman | Nodejs

Projects:

Gift Store Website

Source Code

Technologies used: Tailwindcss, Nextjs, Python, Django, Django REST Framework.
- Developed a comprehensive and secure e-commerce gift store offering a seamless shopping experience.
- Features include an authentication system for secure logins, a fully functional cart, and smooth checkout and payment options.

Weather Forecast Website

Source Code

Technologies used: Tailwind CSS, Next.js, Open-Meteo API.
- Created a dynamic and responsive weather forecasting website providing real-time weather information.
- Includes current conditions, hourly forecasts, and 7-day forecasts tailored to any location worldwide.

Personal Website

Source Code

Technologies used: Tailwind CSS, Nextjs, Framer Motion.
- Built a dynamic and responsive portfolio website to showcase my journey, projects, and skills.
- Enhanced with Framer Motion for animations, offering an engaging and interactive experience for visitors.

EDUCATION:

Shahjalal University of Science and Technology

B.Sc in Genetic Engineering and Biotechnology

Sylhet, Bangladesh

February, 2024
